XM satellite radio provides a service that offers variety and quality unlike any other. My paid subscription also insures me that I get the services i want and need. The traffic and weather that XM offers allows me to get up-to-date information all of the time.

I respectfully urge the FCC to reject the NAB's Petition 04-160. What gives the NAB the right to dictate the information I pay for and want to hear? Thank you.

Regards,
Michael
